Veterans Health – MIT Hacking Medicine 2024

Powered by Microsoft Artificial Intelligence Technology

Hosted by Tampa VA Medical Center

Friday, May 17 – Sunday, May 19 | USF Morsani College of Medicine | Tampa, Florida

Tampa VA, along with VHA Innovation Ecosystem, Microsoft, and MIT are launching the first-of-its-kind Veterans Health Hackathon to design solutions to the top challenges facing Veteran health care.

WHAT IS THE HACKATHON?

The Veterans Health Hackathon spans three days, beginning on Friday afternoon and concluding on Sunday. Throughout the event, seasoned mentors and subject matter experts will guide teams from problem definition to concept development, culminating in the evaluation of each solution by independent judges.

WHAT IS THE FOCUS?

– Connect Veterans to the Soonest and Best Care

– Prevent Veteran Suicide

– Hire Faster and More Competitively

WHO CAN PARTICIPATE?

Anyone ready to positively impact Veteran health care including **Veterans**, Clinicians, Scientists, Designers, Entrepreneurs, Administrators, Business Professionals, Engineers, Programmers, Researchers, and Artists.

WHO ARE THE PARTNERS?

Internal VA collaborators from several program offices, regional networks (VISNs), and VA Medical Centers; external collaborators from academia, Tampa Bay ecosystem, foundations, Veteran Service Organizations, and the private sector.

HOW CAN YOU PARTICIPATE?

Apply on the website by April 30, 2024 using the QR code. If you have any questions, please email *VHATAMVeteransHealthHack24@va.gov*
