

2023 VHA
INNOVATION
EXPERIENCE

OCTOBER 31ST – NOVEMBER 2ND, 2023

INNOVATORS, WELCOME HOME

VHA Office of Healthcare Innovation and Learning's (OHIL) annual Innovation Experience (iEX) conference returns this fall. iEX is the annual flagship conference for OHIL, showcasing employee driven innovations, collaborations, and the journey of innovation - ultimately highlighting VA's commitment to delivering upon our mission of serving all who served. iEX is open to anyone and provides Veterans and the public an opportunity to experience and celebrate how innovation, collaboration, and technology are breaking boundaries, forging the future of Veteran health care.

THE EXPERIENCE

Over iEX's three days, attendees will hear from Secretary for the U.S. Department of Veterans Affairs, Mr. Denis McDonough, and VA Under Secretary for Health, Dr. Shereef Elnahal, and expert panelists during *Government to Industry* and *Mission Daybreak*. iEX Talks and the 9th annual [VHA Shark Tank Competition](#) will return to the stage. Four new breakout tracks will offer participants the opportunity to customize their iEX experience and build foundational innovation skills. Join fellow visionaries in shaping the future of health care and explore ways VA is improving care for all who served, now and into the future.

SIGN ME UP

The 2023 VHA iEX will take place in-person from October 31st – November 2nd, 2023 at [Capital Turnaround](#) in Washington, DC. Seats are limited, so secure yours by [registering to attend VHA iEX in-person](#) today. The VHA Shark Tank Competition on Day 2 is the only portion of the event that will have a virtual option. If you are unable to make it to Washington, DC and would still like to participate in some of iEX, [register to virtually watch the VHA Shark Tank Competition](#).
